CYBER RESILIENCE FOR THE BUSINESS CONTINUITY PROFESSIONAL

Alaska Native Corporation | 8(a) Small Disadvantaged Business

Organizations today are confronted by a wide range of cyberattacks, and your organization is no exception. Cyber Resilience for the Business Continuity Professional is an information-packed four-day experience providing an understanding of how to address cyber disruptions within a business continuity framework.

You'll discover how business continuity and cybersecurity must integrate within every organization. These two traditionally separate functions must work together, and with this course, you'll be able to take steps to make that happen in your organization. Doing so will streamline well-coordinated identification and response to attacks or data breaches, minimize costs, protect the organization's reputation, and give you the professional

In the Course you will receive:

- Detailed instruction, framework, and guidance for combining cyber security and business continuity into an effective Cyber Resilience program.
- Actionable recommendations to represent an appropriate "value proposition" to ensure the investment necessary to step up to a strong Cyber Resilience program.
- Cyber/BCM based exercises to help understand the issues you will face.
- Cyber Resilience Examination preparation for DRI International Certified Cyber Resilience Professional certification.
- Share experiences with other professionals.
